SUMMARY

Full-stack engineer with six production web apps live today across the PERN and MERN stacks and Next.js, plus a sole-author research study in LLM evaluation. Owns products end to end: schema and API design, React front ends, deployment, and measurement with Lighthouse and Core Web Vitals. Computer Science graduate, FAST-NUCES (CGPA 3.6 / 4.00), Fiverr Level 1 Seller.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, SQL, Kotlin
Frontend	React, Next.js (App Router), Redux Toolkit, Tailwind CSS, responsive and accessible UI, Core Web Vitals
Backend	Node.js, Express, FastAPI, Spring Boot, Apache Kafka, REST, JWT / RBAC, Socket.io
Databases	PostgreSQL, MongoDB, MySQL, SQL Server, DuckDB, Mongoose
AI & Tools	LangChain, RAG, PyTorch, Modal; Git, Docker, Vercel, Postman, JUnit 5, Testcontainers

SELECTED PROJECTS

IndonesiaCompliance: Regulatory Roadmap Platform LIVE	2024 - 2025
<i>Next.js, Node.js, PostgreSQL, Vercel.</i> Live: indonesia-compliance.vercel.app	
Production platform that turns Indonesian regulation into step-by-step compliance roadmaps and has generated over 1,000 of them: KBLI code search, license and visa guides, and a Next.js front end over a PostgreSQL-backed API.	
MedScholar: Clinical Research Platform (Final Year Project) LIVE	2025 - 2026
<i>React, FastAPI, PostgreSQL, LangChain, FAISS.</i> Live: med-scholar-ten.vercel.app	
Retrieval-augmented workspace that answers clinical questions from PubMed literature with cited sources; React front end, FastAPI service, PostgreSQL storage, and a FAISS index with strict grounding constraints to limit hallucination.	
reccs.co: Product Recommendation Platform LIVE	2025
<i>React, FastAPI, DuckDB, Modal GPU, fine-tuned RoBERTa.</i> Live: reccs.co	
Ranks products from sentiment across 14.1 million Reddit comments in 937 subreddits: fine-tuned RoBERTa classification on Modal GPU workers, a FastAPI and DuckDB API, and a React front end with search, grades, and guides.	
Pakistan Legal Nexus: Legal Operations Platform LIVE	2025 - 2026
<i>MERN: React, Redux Toolkit, i18next, Express, MongoDB, JWT, Socket.io, Multer.</i> Live: earnest-praline-2c72a6.netlify.app	
Platform for lawyers, litigants, and clerks with role-based access, case files with document upload, lawyer directory, marketplace, and real-time chat rooms in English and Urdu; 83 API endpoints over 16 models.	
CryptoFolio: Cryptocurrency Portfolio Tracker	2026
<i>MERN: React, Tailwind CSS, Express, MongoDB, JWT, CoinGecko API, Cloudinary.</i> Code: github.com/AhmedMufti/CryptoFolio	
Portfolio tracker with live prices, virtual buy and sell, and a performance dashboard; JWT auth with bcrypt, Mongoose models, and a React single-page front end.	
Order Pipeline: Spring Boot Services over Kafka	2026
<i>Java, Spring Boot, Spring Kafka, Docker Compose, Testcontainers.</i>	
Order and inventory services communicating through a three-partition Kafka topic with idempotent consumption and a dead-letter topic; verified rebalancing, replay, and fan-out, with Testcontainers integration tests.	

EXPERIENCE

Freelance Software Engineer, Fiverr (Level 1 Seller)	Jun 2024 - Present
<i>Independent clients, remote</i>	
- Delivered full-stack web and machine-learning projects for international clients, taking each from brief to deployed product, and reached Level 1 Seller through consistent on-time delivery. - Built Brand Engine, a generative-AI service that produces brand assets on demand (Python, FastAPI, ComfyUI with Flux.1 Schnell, Modal serverless GPUs).	
Teaching Assistant (Part-time)	Jan 2025 - Jun 2026
<i>FAST-NUCES, Islamabad, Pakistan</i>	
Ran labs, wrote assignments, and graded projects for Computer Networks, Theory of Automata, and Professional Practices in IT, supporting over 100 students; selected on academic performance.	
Cyber Security Intern	Jul 2025 - Aug 2025
<i>Risk Associates, Islamabad, Pakistan</i>	
Ran penetration tests and security audits on enterprise web applications and reported OWASP Top 10 vulnerabilities with remediation guidance.	

EDUCATION

BSc Computer Science	Aug 2022 - Jun 2026
<i>National University of Computer and Emerging Sciences (FAST-NUCES), Islamabad, Pakistan</i>	
CGPA 3.6 / 4.00. Dean's List for four consecutive semesters (Spring 2024 to Fall 2025). Coursework: Software Engineering (A+), Web Programming, Database Systems, Operating Systems (A+), Computer Networks (A), Software Design and Analysis, Generative AI (A+), Agentic AI (A+).	

ACHIEVEMENTS & CERTIFICATIONS

- Sole-author research study of small language models in agentic RAG (manuscript in Springer LNCS format; MIT code on GitHub). Fiverr Level 1 Seller. IELTS Academic 8.0. Machine Learning Specialization (Stanford / Coursera, in progress); Pre Security (TryHackMe).
